

## **SKEET/TRAP RANGE RULES**

- Shotguns Only.
- Eye and Ear protection are supplied and recommended.
- Range officer is in charge and has final say on all matters.
- The safety must be engaged at all times and only placed on fire just prior to your call of “Pull” and then returned to the safe position.
- Shotguns must be open and empty unless at firing station.
- Keep your eyes trained on EVERY bird, even when you are not shooting. Fragments of clay pigeon can be extremely sharp, and can cause severe bodily harm if they hit you.
- Never walk in front of a house when throwers are still turned on. Always assume the houses are on.
- Be sure that nobody is in a house before a round is started.
- Always stay behind the current shooter on the firing line.
- Load only when at firing station.
- No loaded guns allowed except while on firing station and ready to fire.
- Clean up after yourself. This includes picking up and properly disposing of all hulls.
- Put gun in racks provided while not on the firing line
- No alcohol or mood-altering drugs, including medication, when handling firearms.
- Unsafe acts will result temporary range shut down and could end the activities for the day.
